

# IVIN - Meeting Minutes

Meeting Subject:

Meeting Date: 2025-11-24

Meeting Time: 22:38 IST

## Attendees:

- - Gila
- - [Person A] (context suggests involvement)
- - [Person B] (context suggests involvement)
- - [Person C] (context suggests involvement)

## Absentees:

- None

## Meeting Summary:

- The client wants the guidebot to respond faster and include nearby landmark suggestions.
- Change in guidance approach: instead of directing to departments, use specific landmarks (e.g., "take the left after the pharmacy").
- A location database is being built including floor numbers, departments, landmarks, and categories.
- The first version of the database to be shared today, to be converted into Intensors and an Entity List.
- Preparation of APA endpoints for the bot to access information with flexibility for future client edits.
- Client request for voice tone variations based on the context (e.g., soft for hospitals, energetic for malls).
- Discussion on keeping resource usage low to avoid response delays while implementing voice style adjustments.
- Selection of English, Telugu, and Hindi as the initial language options for version 1, with future possibilities for expansion.
- Integration of a translation layer between the NLP and the database to enhance natural responses.
- Testing edge cases is crucial for ensuring the bot's reliability.
- Prototype completion targeted for Friday with a planned end-to-end testing tomorrow.
- Tasks assigned for finishing the dataset, designing conversation flow, connecting database, and load testing.

## Action Items:
